March 19, 2026

The Honorable Tom Cole
Chairman
House Committee on Appropriations
Washington, D.C. 20515

The Honorable Rosa DeLauro
Ranking Member
House Committee on Appropriations
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Town of Fletcher, North Carolina's Fanning Bridge Road Sewer System Extension, in fiscal year 2027. The entity to receive funding for this project is Town of Fletcher, located at 300 Old Cane Creek Rd, Fletcher, NC 28732.

The requested funding would support the Town of Fletcher's North Fanning Bridge Road Sewer System Extension. The project is an appropriate use of taxpayer funds because it would address water quality concerns in neighborhoods currently reliant on aging or failing septic systems. Extending municipal sewer service to the Westfield Road, North Hudson Lane, and Dogwood Terrace area will reduce the risk of groundwater contamination, protect nearby surface waters, and provide a more reliable and environmentally sound wastewater solution for residents. The Town has been coordinating with the Metropolitan Sewerage District to plan the extension, which will ensure that wastewater from this growing area is safely conveyed to a regulated treatment facility. This project represents a proactive investment in public health, environmental protection, and long-term infrastructure resilience.

The project has a federal nexus because the funding provided is for purposes authorized by Title VI of the Clean Water Act, 33 U.S.C 1381 et seq.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Chuck Edwards
Member of Congress
